JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

**Webera Lachenaudi** Card & Ther. n. sp. Plate IX.

A new *Webera* has been collected recently in our locality, *Webera Lachenaudi* Card. & Ther., named after M. Georges Lachenaud, of Limoges, France. The following are M. Cardot's notes on it. (Translated.) "*Webera Lachenaudi* C. & T. (species nova), near to *Webera lutescens* Limpr. It differs in its larger stems, its strongly dentate leaves, its more chlorophyllose tissue and its capsule more urceolate (not pyriform)."

It is found on wet sand and clay banks in the woods south of the north bay of Lake Union. Fruit and male inflorescence shown in the illustration.

JOHN W. BAILEY, M. D.,

Seattle, Wash.

#### THE HULST BOTANICAL CLUB OF BROOKLYN, N. Y.

On Tuesday afternoon, April 13th, 1904, the following persons met at Dr. A. J. Grout's home to organize a botanical club. Mesdames Alice H. Shepard, Margaret H. Platt, Rebecca L. Palmer, Emma L. Kingsland, Caroline A. Creevey, Low, Ida M. Conklin, Grace Grout, Annie Morrill Smith, Carolyn W. Harris, Mr. Wood and Dr. A. J. Grout. It was decided to name the club "The Hulst Botanical Club," in memory of Dr. George D. Hulst, who for many years was president of the Department of Botany of the Brooklyn Institute of Arts and Sciences and who was probably the best informed botanist of the flora of Long Island.

The object of the Club to be the mutual benefit to its members of discussion of botanical subjects and the awakening of interest along such lines.

The special work of the Club to be the making of an exhaustive list of the flora of Long Island.

The Club is to form a Chapter of the Wild Flower Preservation Society of America. Dr. A. J. Grout was appointed director of the Club; Mrs. Carolyn W. Harris, secretary.
